RESEARCH EXPERIENCE

Topics of focus. I also have specifically focused in the following topics:

- Political extremism and interpersonal violence
- Public opinion and racial attitudes in the U.S.

- Social identity and political psychology

Research Skills. Through various research projects, I have utilized and developed the following skills:

- Research team management and supervision
- Text data collection, processing, and analysis
- Matching and difference in difference designs
- ARIMA models and time-series analysis
- Qualtrics and experimental designs
- Supervised and unsupervised machine learning

TECHNICAL SKILLS

Software R, Microsoft Office Suite, Latex, basic Python

NON-ACADEMIC WORK EXPERIENCE

Collingwood Research: *Associate Researcher* Summer 2021- Present

- Compiled and analyzed data including voter files and demographic data.
- Experienced in merging shape files and using Maptitude to create maps
- Imputed race by utilizing BISG algorithms
- Performed large-scale geocoding operations on massive datasets

Independent Research Consultant Fall 2015- Present

- Performed research on diverse topics such as energy grid security and agricultural emissions
- Analyzed web traffic data, providing visualizations for interpretability

American Gas Association: *Research Intern* January 2015 - Fall 2015

- Conducted research on technical topics to support policy making and lobbying efforts
- Wrote summaries of the research, drafted talking points, and prepared informational handouts

Media Research Center: *Staff Writer* September 2013- August 2014

- Authored regular blogs, including both short news items and longer research and analysis pieces
- Closely followed political news and helped determine research questions and topics of interest

McCullough Research: *Research Associate* June 2012- June 2013

- Compiled extensive research reports and interfaced with media during their distribution
- Collected and analyzed a variety of data, including archival sources and FOIA requests
